Allowable Subject Matter

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance. In claim 1, applicant has claimed an apparatus with the following combination of elements: a drop in sample tube having an open end and a closed end as well as an annulus adjacent the open end that projects out radially and includes an anti-rotational structure and carousel designed for receiving a drop in sample tube with openings that include compatible and mating anti-rotational structure for mating with the anti-rotational surface of the tube. The Examiner did not find prior art that contains or suggests such a combination of features. The Examiner considers the previously cited reference "Cole" to be the closest prior art. Cole teaches a rotor that holds sample tubes through a screw-type arrangement in a hanging position while the rotor is spun.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dwayne K Handy whose telephone number is (571)-272-1259. The examiner can normally be reached on M-F 8:00-4:30.
